

printing

Digital (Flat)

Digital printing is both budget-friendly and colorful. It is the method of printing a digital-based image directly on your paper of choice.

Letterpress

Letterpress is a delight to the senses with both rich and bright colors, and delicious print texture. It is a luxurious printing technique in which your design is inked and pressed into paper by hand on antique machinery leaving a deep impression in the paper. Letterpress is available on both cotton card stock and handmade paper.

****White ink offered - best with lighter cardstock***

Metallic Foiling:

Foil is eye catching, versatile, and really makes a statement on paper. With its opaque nature, foil can be used to print in white or pale colors on dark paper and envelopes. It can also be shiny and is a great choice for gold or silver. Foil will add that extra pizzazz to a modern suite and elevate the elegance of a traditional invitation.

****This print method involves foil, plates, and is run by hand, therefore it is the higher of our production costs.***

****White offered - best with dark cardstock***

Twine or Ribbon & Assembly

Choose to have your invitation suite wrapped in our fine paper twine or our hand dyed silk ribbon assembled as a package ready for your guests to unwrap.

Handmade Silk Ribbon

Our handmade silk ribbons are made of a light silk habotai and dyed in small batches from a unique blend of pigments to create subtle and complex shades. Silk ribbon is available in .5" & 1" width.

****Custom color available upon request***

Fine Paper Twine

Our fine paper twine is made in Europe and gives your invitation suite an organic touch. This delicate twine lends itself to a simple, modern aesthetic with organic flare.

Fine Paper Twine is available in 0.01" width.

Addressing

Digital Addressing

Digital addressing is the perfect way to seamlessly complete your invitation suite.

Your envelopes will be addressed in a digital typeface that corresponds with the typeface style featured in your Invitation Suite.

****This option is only available for lighter colored cardstock envelopes.***

Letterpress Addressing

Letterpress addressing is a perfect way to introduce your guests to what your invitation suite will look like.

Your envelopes will be addressed by the oldest form of printing and our absolute favorite!

****This option is only available for lighter colored envelopes.***

Foil Addressing

Foil addressing is a great way to add a touch of pizzazz to your invitation suite.

Foil addressing is available for our Invitation Suites and Save the Dates.

Calligraphy Addressing

Calligraphy addressing is a wonderful way to add a personal touch to your invitation suite. Your envelopes will be addressed by hand in the calligraphy style of your choice.
